Whig and Courier

John S. Hayward Editor

FRIDAY, FEB. 17, 1894

Mr. Webster once made the remark that, according to his observation, whenever an issue arose between the North and South, touching the question of slavery, the North was always false to itself, and generally furnished the men who went furthest in advancing it. And he lived till the present time, he would have witnessed a still more striking proof of the truth of his remark, in the daring and villainous project of some of Douglas to repeat the Missouri Compromise, by the Nebraska Territory at all.

his Douglas is a political schemer, and as a political parties are now on the broad ground of national honor and prosperity, and without any great unresolvable issues between them; Mr. Douglas wishes to stir up a strife which will make an issue, give to him the advantage of Southern support, and with this as political capital, he can manage to get Northern support, since that, for the space, is ever ready and willing to yield all that slavery asks, and all it approves.

"OCEAN FERRY POWER" - This application, a movement is now being made in England to reduce the rate of postage on the ocean, (now charged at one-fifth of the rate of postage, over the land). Experience has demonstrated that the reduction of the inland postage has not been productive of any greater loss to government, as the consequent increase of letters has fully compensated the supposed loss by diminution of rate; and that many advantages and blessings have flowed to the people from it. It is obvious that the same result would be obtained by a similar reduction of the postage by sea; and even that a more favorable view, when we consider the perpetual process and extension of commerce, and the immense emigration from the Old World to the New, repeating friends, to whom cheap facility of intercourse would be an inestimable blessing. The famous Eliza Warrille has been led to this country vigorously in England; and is now in this country - his own native home - for the same purpose. As it is a common case, we hope he will be suitably seconded.

"We publish to-day in the Kennebec Journal, the nominations made by the Governor to fill a portion of the officers within the gift of the Executive. These nominations have for a long while been held by Democrats, and they can have no right to complain that they now pass into the hands of the Whigs. These offices are regarded by the Democratic as a heavy burden to be borne, and they are always careful to impose them for their purposes, and they have no hesitations in placing them in the hands of those who are ready to sustain them. It is a common case, we hope he will be suitably seconded.

Mr. McGuffin, it seems, changed his office of Land Agent, and the nomination of Mr. McGuffin of Anson will give to this office a man of efficiency and ability.

"By referring to the amount of the proceedings of Congress, it will be seen that, on Tuesday, the United States Senate passed to be engrossed the French Spindle Bill. This bill has been often successful in some of its stages, but has not been so successful in others. It is now upon the Senate again, and we trust, very soon, to be passed, and then, to be put into effect. It is a common case, we hope he will be suitably seconded.

"There are about 1500 operatives in the mills of Lewiston. New companies have been recently organized with a capital of over \$2,000,000. It is estimated that the number of inhabitants at the end of the year will be ten thousand. At this rate it will not take long to attain the very high rank among the cities of the State. It is natural advantage for manufacturing purposes are not surpassed by those of any other place in New England. If the people of Maine are wise, they will encourage the rise of other manufacturing towns along the numerous waterfalls.

Public Meeting - Bangor is to speak. We publish to-day a call for a public meeting in order to give an expression of public opinion here against the Nebraska Territory - to disregard slavery into free Territory - to disregard slavery into free Territory - to disregard slavery into free Territory.

Maine Legislature

Anson, Feb. 14
